bosa ★®

"Le tonalità e le combinazioni cromatiche delle nostre collezioni raccontano l'alternanza delle stagioni, fanno viaggiare la fantasia, ispirano emozioni, creano l'atmosfera quotidiana: gli oggetti che preferite accompagneranno lo scorrere del tempo e i colori che sceglierete li renderanno esclusivamente vostri."

- Italo Bosa

'The tones and chromatic combinations of our collections embody the alternating seasons; they let the imagination soar, inspire emotions, and create everyday atmospheres. Your favourite pieces will accompany the passage of time and the colours you choose will make them entirely yours.'

- Italo Bosa

In un angolo di campagna veneta reso quasi fiabesco dal gioco irregolare delle colline e dal percorso di vivaci corsi d'acqua, in un paese che riprende nel nome la cima montuosa più nobile ed elevata, Borsò Del Grappa, è insediata da un tempo oramai considerevole Bosa, un laboratorio ceramico conosciuto in tutto il mondo. Non è un caso se in quest'area del Veneto pedemontano confluiscono la grande tradizione della ceramica bassanese, lo spirito veneziano di cultura cosmopolita e l'attenzione pionieristica all'innovazione asolana.

È nel 1976 che Italo Bosa avvia la propria produzione ceramica seguendo le antiche tecniche di lavorazione per oggetti realizzati interamente a mano, valorizzati da una ricca palette cromatica, decorati con metalli preziosi – oro, platino, rame – e smalti dalle tonalità esclusive creati dall'azienda. Tecniche precise che sono ancora oggi alla base della produzione di Bosa e che conferiscono agli oggetti unicità, qualità e riconoscibilità.

In a corner of the Venetian countryside, with an enchanting hilly skyline and babbling mountain brooks, there is a town, Borsò del Grappa, which echoes the name of its highest and most noble mountaintop, where Bosa, the ceramic industry renowned around the world, chose to settle many years ago. It is no coincidence that the piedmont area of the Veneto region has merged Bassano's great ceramic tradition with Venice's spirit of cosmopolitan culture and Asolo's pioneering attention to innovation.

In 1976 Italo Bosa began his own ceramic production, applying the ancient techniques for making objects entirely by hand, enhanced by a rich palette of colours, decorated with precious metals such as gold, platinum and copper, and enameled in the exclusive shades of colour created by the company. These precision techniques remain the foundation for Bosa's production and ensure that Bosa's objects remain unique, recognizable and of the finest quality.

Gli oggetti e i complementi d'arredo in ceramica creati nella maison Bosa, oltre ad esprimere tutta la conoscenza del mestiere artigiano, trasmettono quell'incessante sperimentazione delle possibilità della ceramica che ha tra gli obiettivi la trasformazione di consuetudini formali e funzionali in nuove interpretazioni, nuove funzioni e mondi fantastici, missione che Italo Bosa ha saputo trasferire alle figlie Francesca e Daniela, alla moglie e a tutti i propri collaboratori.

Ciò che contraddistingue Bosa, facendone un'azienda leader nell'ambito della ceramica di design in Italia e nel mondo, è proprio l'aver fatto della ricerca e dell'innovazione i punti di forza dell'azienda, tanto da riuscire a realizzare progetti quasi impossibili per la difficoltà degli stampi e le dimensioni over, che evidenziano la speciale propensione del fondatore a condividere avventure progettuali con i designer, per lo più giovani di provenienze europee, sperimentatori di linguaggi nuovi, che hanno contribuito a definire l'elevato posizionamento del marchio Bosa.

Dall'iniziale collaborazione con Marco Zanuso Jr. e il consolidato rapporto con lo studio Palomba-Serafini, Bosa ha stretto amichevoli relazioni professionali con Constance Guisset, Patricia Urquiola, Nika Zupanc, Ionna Vautrin, Pepa Reverter, Marco Morosini, Manolo Bossi, Gualtiero Sacchi, Sam Baron, Luca Nichetto e un particolare feeling con Jaime Hayon, ideatore di tanti gioiosi universi, e con Elena Salmistraro, dal linguaggio iper-décor. Altrettanto importanti sono da considerare le collaborazioni con aziende leader quali Disney, Minotti, Moroso, B&B Italia, Baccarat e le forniture personalizzate per Ferrari, Escada, DeBeers, Maison Matisse, Warner Bros, Karl Lagerfeld e altri ancora.

The ceramic objects and accessories created by maison Bosa not only express the full range of its crafting expertise, but express its ceaseless experimentation with the potential of ceramic, with the aim of transforming formal and functional conventions into new interpretations, new functions and fantastic worlds, a mission that Bosa has passed on to his daughters Francesca and Daniela, to his wife and to everyone who works with him.

What distinguishes Bosa, and makes it a leader in the field of designer ceramics in Italy and around the world, is its decision to make research and innovation the strong points of the company, thereby creating the know-how required to develop projects that seemed impossible because of the difficulty involved in making oversize objects and moulds, which highlight the special joy the founder takes in sharing the design processes with his mostly young and European designers, who experiment with new languages, and have helped to establish an upscale market position for the Bosa brand.

From the initial collaboration with Marco Zanuso Jr., and the consolidated relationship with the Palomba-Serafini firm, Bosa has developed friendly professional relationships with Constance Guisset, Patricia Urquiola, Nika Zupanc, Ionna Vautrin, Pepa Reverter, Marco Morosini, Manolo Bossi, Gualtiero Sacchi, Sam Baron, Luca Nichetto and a particular understanding with Jaime Hayon, who has invented so many exuberant worlds and Elena Salmistraro and her decorative language. Equally important are its collaborations with leading manufacturers such as Disney, Minotti, Moroso, B&B Italia, Baccarat and its custom-designed contract work for Ferrari, Escada, DeBeers, Warner Bros, Karl Lagerfeld and many others.

↓ The Tournament,
London Design Festival
Trafalgar Square,
London, 2009

Bosa è attualmente presente in più di 50 nazioni del mondo, non solo per la sua reputazione, l'immagine del marchio e l'identità dei prodotti, ma anche grazie all'attuazione di una politica di marketing puntuale che consente di presidiare diverse nicchie di mercato con un'ampia gamma. La distribuzione così capillarmente risolta si beneficia altresì della presenza sostanziosa di opere di art design nei musei internazionali più prestigiosi, attraverso mostre tematiche, esposizioni temporanee e bookshop che restituiscono all'azienda una continua e benefica visibilità.

→ Mickey Mouse
Forever Young, 2018

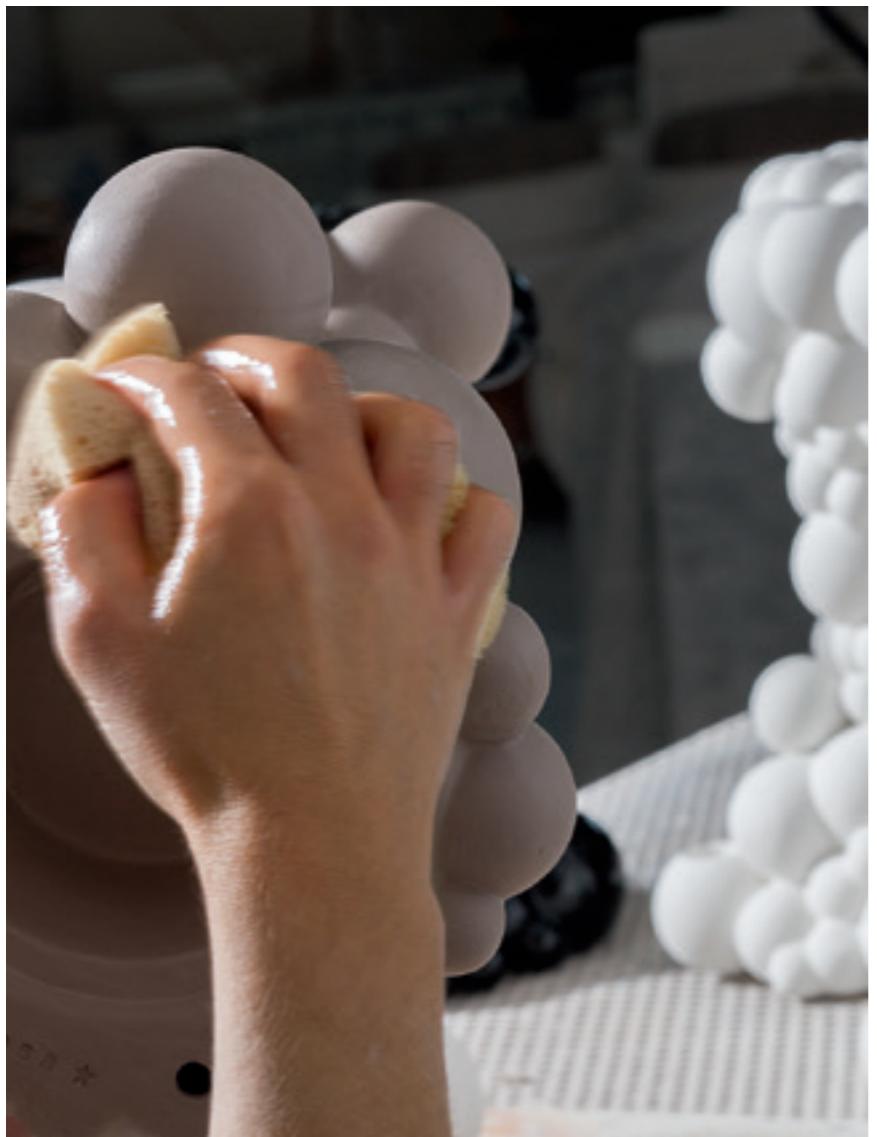

Bosa is currently marketed in over 50 nations around the world, not only thanks to its reputation, brand image and product identity, but also thanks to the implementation of a specific marketing strategy that positions the company in various market niches with an ample range of products. This capillary distribution also benefits from the significant presence of art design pieces in the most prestigious international museums, in thematic exhibitions, temporary shows and bookshops, which ensure the company constant and valuable visibility.

LAVORAZIONI

Tutti gli oggetti della collezione Bosa sono realizzati interamente a mano secondo le antiche tecniche della lavorazione della ceramica. Gli stampi utilizzati sono in gesso per permettere il controllo formale e minuzioso del progetto. Una volta separato il pezzo dallo stampo, l'oggetto viene pulito e rifinito a mano, curandone tutti i minimi dettagli, e quando sarà asciutto potrà essere cotto in forno.

All the objects in the Bosa collection are made entirely by hand using the ancient techniques of ceramic making. The moulds are made out of plaster to allow scrupulous formal control over the project. Once it is removed from the mould, the piece must be cleaned and finished by hand, attending to the smallest of details, and once it is dry it can be fired in the kiln.

Terminata la fase di essicazione, il pezzo sarà infornato per la prima cottura ottenendo il biscotto. Successivamente si avranno diverse cotture per la vetrificazione dello smalto e per il ritocco delle imperfezioni fino al raggiungimento della massima qualità del prodotto. Gli oggetti decorati con oro, platino o rame, vengono ulteriormente cotti a fuoco dopo la vetrificazione, per fondere il metallo prezioso allo smalto.

When the piece has dried, it will be put in the kiln for the first time and biscuit-fired. It will then be fired several more times to vitrify the glaze and to retouch the imperfections, until the product has achieved the highest possible quality. The objects decorated with gold, platinum or copper, are glaze-fired again after vitrification to fuse the precious metal into the glaze.

Gli smalti, che permettono la vetrificazione dell'oggetto, sono miscolati e composti all'interno del nostro laboratorio ed è per questo che la gamma colori è esclusività di Bosa. Ogni pezzo, dopo la prima cottura, viene immerso in vasche contenenti lo smalto liquido e successivamente sarà ripulito da eventuali gocce o imperfezioni. Lo smalto non viene applicato sulla base dell'oggetto per evitare la sua fusione con le piastre del forno.

The glazes that make it possible to vitrify the object, are mixed and composed in our own workshop, so that Bosa's colour range is exclusive to the company. After the initial firing, each piece is immersed into the tubs containing the liquid glaze; any excess drops or imperfections are later removed. The base of the object is not glazed, to prevent it from fusing to the plates of the kiln.

Le decorazioni sono eseguite a pennello da maestri di massima precisione ed esperienza. I metalli nobili e preziosi quali oro, platino, rame e le loro gamme, applicati con il pennello, fondono assieme allo smalto durante il processo di cottura che, portata a 720°, garantisce l'autenticità del materiale e la sua durata nel tempo.

The decorations are hand-painted by master artist with great precision and experience. Noble and precious metals such as gold, platinum, copper and their ranges, applied with a brush, fuse into the glaze during the firing process, brought to a temperature of 720° to guarantee the authenticity of the materials and its durability over time.

I colori sono il punto di forza di Bosa: molti oggetti si possono personalizzare scegliendo da una gamma di quasi cento tonalità tra smalti lucidi, opachi e metalli preziosi.

Colours are Bosa's strong point: many items can be customised by choosing from almost 100 hues, with shiny, matt and precious metallic finishes.

Come in un gioioso ballo, i prodotti best seller firmati da Jaime Hayon si divertono a travestirsi con segni forti e toni vivaci: la gestualità del disegno e del colore esprime l'immaginario allegro e fantasioso del designer spagnolo.

Like at some glorious ball, the best selling products designed by Jaime Hayon like to conceal their identities with strong features and vibrant colours: the gestures expressed within the design and colours reveal the upbeat and creative imagination of the Spanish designer.

Tutti i prodotti del catalogo
possono essere richiesti con
le tonalità presenti nella scheda
colori, il tono esatto dello smalto va
però verificato con il campionario
colori in ceramica. Nei diversi
oggetti la stessa tonalità potrà
riportare piccole differenze di
intensità del colore, soprattutto
legate a forme e volumi differenti
o dovute a variazioni minime della
temperatura di cottura. Sono
queste diverse caratteristiche
che rendono unico ogni pezzo.

*All the products in the catalogue
may be ordered in the hues shown
in the colour sheet, though the
exact tone of the glaze must be
verified against the ceramic
colour samples. In different
objects, the same hue may show
slight differences in the intensity
of the colour, caused generally by
the different shapes and volumes,
or due to minimum variations in
firing temperature. These distinct
characteristics contribute to
making each piece unique.*

I nuovi prodotti possono essere
soggetti a modifiche nelle
specifiche, dimensioni e finiture
a causa di sviluppi produttivi.
Tutti i disegni mostrati sono
protetti da copyright.
Bosa detiene i diritti di produrre
e vendere questi prodotti nonché
l'esclusiva per la produzione
e distribuzione in tutto il mondo.
La copia sarà perseguita
secondo la legge.

*New products may be
subjected to minor changes
in specifications, size and finish
due to production developments.
All the designs shown here
are protected under copyright
law. Bosa has the property
rights to manufacture and sell
these products and holds
