Welcome to Stackelbergs

Stackelbergs is a family-owned company that specializes in stylish and timeless wool and mohair throws of the highest quality. For over 15 years, we have produced our blankets with our design according to traditional craft methods and today we are one of the largest in the Europe within our segment. The blankets are made from natural materials by the best producers and sold only to quality stores throughout Europe. Our production is located at the best in Italy, South Africa and Ukraine.

We are proud to be the first to produce an entire collection of RMS-certified mohair. We always try to be at the forefront and take part in new, exciting and necessary developments. For us, it is important that production and choice of materials leave as small an impact on the environment as possible while you get a fantastic product. For example, we have opted out of acrylic and artificial materials as much as possible and only use this when it adds extra comfort, care and strength to our products.

Thanks to our long experience and deep knowledge, we can offer you and your customers unique plaids and accessories that more and more people appreciate. We can also provide customized products for prestigious projects where special design and high quality are required.

With handmade fringes, high quality materials and a range of modern colours, a product from Stackelbergs will always bring comfort and exclusivity to its owner. For daily care and a long-lasting product, or just curious about us and what we do, find out more on

Anna-Carin Stackelberg

Our Core Collection

Tradition, genuine craftsmanship and high quality – Stackelbergs has taken care of what is worth preserving in its collection of mohair throws. Particularly distinctive are all the beautiful colors and the rolling fringes, which are made by hand according to old craft tradition and give the plaids that little something extra. In order to meet the high-quality standards, the blankets are manufactured by some of the world's leading producers of mohair blankets in South Africa.

The Mohair Core Collection is made from 70% Mohair wool, 25% Wool and 5% Nylon binding. All plaids measure 130 x 170 cm. All OEKOTEX certified.

If you use your plaid frequently, the brushed fibers may shrink slightly after a while. You can then very easily get it almost like new by using a regular clothes brush and brushing it up again.

Should you happen to get a stain on your plaid, you can easily remove it with a damp cloth and mild detergent. We do not recommend that you wash your plaid, but instead it should be aired. If, against all odds, you need to wash the plaid, it should always be dry-cleaned.
